Monocular version

Objectives OBE

Darkfield unit

Compound microscopes KERN OBE-10 \cdot 11

EDUCATIONAL LINE

The fully equipped all-round compound microscope for school, training and laboratories

Features

- The KERN OBE series is a range of high-quality, fully-equipped compound microscopes, which can't be beaten in terms of ease of use and ergonomic design
- The strong and continuously dimmable
 3 W LED guarantees optimum illumination of the samples and also ensures long service life. Mobile use of several models is also no problem through the use of rechargeable batteries
- The height-adjustable and thereby focusable 1,25 Abbe condenser with aperture diaphragm is a further quality feature of the OBE series and ensures the very best concentration of light
- Height adjustment of the fully-equipped mechnical stage is carried out using a coarse and fine focusing knob on both

- sides. The ergonomically designed coaxial drive enables you to work with the samples and move them rapidly
- A large selection of different eyepieces and objectives, a simple polarising unit and a darkfield kit are available to you as accessories
- A protective dust cover, eye cups, as well as multi-lingual user instructions are included in the scope of the delivery
- A C-mount adapter is required to connect a camera to the trinocular version. You can select this adapter from the following model outfit list
- Please find detailed information in the following model outfit list

Scope of application

Simple polarising unit

Training, haematology, sediment investigation, doctor's practise

Applications/Samples

 Translucent, thin, high-contrast, less complex samples (e.g. plant tissue, coloured cells/ parasites)

Technical data

- · Finite optical system
- Quadplex nosepiece
- Siedentopf 30° inclined/360° rotatable
- Diopter adjustment: One-sided (for binocular and trinocular models)
- Overall dimensions W×D×H 320×180×365 mm
- Net weight approx. 5,5 kg

Pictograms

360° rotatable

Monocular Microscope

For the inspection with one eye

Binocular Microscope

For the inspection with both eyes

Trinocular Microscope

For the inspection with both eyes and the additional option for the connection of a camera

Abbe Condenser

With high numerical aperture for the concentration and the focusing of light

Halogen illumination

For pictures bright and rich in contrast

LED illumination

Cold, energy-saving and especially long-life illumination

Incident illumination

For non-transparent objects

Transmitting illumination

For transparent objects

Fluorescence illumination

For stereomicroscopes

Fluorescence illumination

for compound microscopes USB 2.0 With 100W mercury lamp and filter

Fluorescence illumination for compound microscopes

With 3 W LED illumination and filter

Phase contrast unit

Darkfield condenser/unit

For a higher contrast due to indirect illumination

Polarising unit

To polarise the light

Infinity system

Infinity corrected optical system

Zoom magnification For stereomicroscopes

Auto-focus

For automatic control of the focus level

Parallel optical system

For stereomicroscopes, enables fatigue-proof working

Integrated scale

In the eyepiece

SD card

For data storage

USB 2.0 digital camera

For direct transmitting of the picture to a PC

USB 3.0 digital camera

For direct transmitting of the picture to a PC

WLAN data interface

For transmitting of the picture to a mobile display device

HDMI digital camera

For direct transmitting of the picture to a display

PC software

To transfer the measurements from the device to a PC

Automatic temperature compesation

For measurements between 10 °C and 30 °C

Protection against dust and water splashes

IPxx: The type of protection is shown in the pictogram cf. DIN EN 60529:2000-09, IEC 60529:1989+A1:1999+A2:2013

Battery operation

Ready for battery operation. The battery type is specified for each device.

Battery operation rechargeable

Prepared for a rechargeable battery operation

Plug-in power supply

230V/50Hz in standard version for EU. On request GB, AUS or USA version.

Integrated power supply unit

Integrated in microscope. 230V/50Hz standard EU. More standards e.g. GB, AUS or USA on request.

Package shipment

The time required to manufacture the product internally is shown in days in the pictogram.

Abbreviations

Adapter for the connection of a C-Mount

camera to a trinocular microscope

LWD Long Working Distance SWF Super Wide Field (Field number at

least Ø 23 mm for 10× eyepiece)

FPS Frames per second N.A. Numerical Aperture

Working Distance W.D.

H(S)WF High (Super) Wide Field (Eyepiece with SLR Single-Lens Reflex camera high eye point for wearers of glasses) camera

WF Wide Field (Field number up to Ø 22 mm for 10× eyepiece)
