

MarCator 810 AG

Large dial indicator

FEATURES

- Large, high contrast dial face
- Adjustable tolerance markers
- Chrome plated housing
- Lifter protection cap on the measuring spindle
- Precision gears and pinions

Application:

- Ideal for long reading distance and in poorly lit conditions

TECHNICAL DATA

Order no.		4322000
Type		810 AG
Measuring span	mm	10
Readings	mm	0.01
Type of dial face		0–100
Error limit, measuring range	μm	17
Error limit, 1 revolution	μm	15
Error limit, 1/2 revolution	μm	10
Error limit, 1/10 revolution	μm	5
Repeatability f_w	μm	3
Measuring value hysteresis f_u	μm	5
Free stroke	mm	0.1
Measuring force incoming measuring pin	N	1.3–2.2
Standard		Factory standard
Lifting protection cap		•
Scale diameter	mm	112
Range per turn	mm	1
Dial color		White

Order no.	Mounting shaft
